SECOND INTERNATIONAL MEETING ON RHINOPLASTY
8-9 JUNE 2018, ROME

PRELIMINARY PROGRAM

Friday 8 June

8:00-8:30 REGISTRATION

PRIMARY RHINOPLASTY: TRADITION, EVOLUTION, NEWS...

8:30-8.40 Welcome and introduction - V. Cervelli

8:40-9:00 Lecture
Virtual rhinoplasty in the Giulio-Claudi dynasty - V. Cervelli

9:00-9:20 Lecture
Rhinoplasty in the Middle East - H. Foda

9.20-10.30 CLOSED AND OPEN TECHNIQUE: FROM THE FIGHT TO THE AGREEMENT
Chairmen: A. Bocciéri , V. Cervelli

9.20-9.35 Are ‘Seniors’ really ahead because they learned by closed approach? A. Scattolin

9.35-9.50 Is open approach really the best option for the beginners? M. Bussi

Surgery of the nasal septum and turbinates

9.50-10.00 Difficult septrh mostoplasty:extracorporeal versus conventional - I. Tasca

10.00-10.10 Correction of the septal deviation - G. Paludetti

10.10-10.20 Treatment of the nasal turbinates - F. Salzano

10.20-10.30 Discussion

10.30-10.50 Coffee break
10.50-12.45 MODERN TOPICS IN RHINOPLASTY
Chairmen: P. Persichetti, M. Pascali

Primary dorsum

10.50-11.00 The dorsum is not just the profile line: thinking and acting 3D - P. Palma
11.00-11.10 Profile rhinoplasty: rebuilding the nasal roof - J.C. Neves
11.10-11.20 Use of diced cartilage to get a natural dorsal line - M. Bussi

Primary Tip

11:20-11:30 Tongue in groove and lateral crural steal in the tip reshaping - H. Foda
11.30-11.40 Good tips for a difficult tip - H. Saleh
11.40-11.50 Progressive surgery of the nasal tip: multichoice technique! - V. Cervelli
11.50-12.00 The bulbous tip: my ideal approach - M. Klinger
12:00-12:10 Tip reshaping by using transdomal sutures - S. Mocella
12:10-12:20 Treatment of the hyperprojected tip - G.A. Bertoli
12:20-12:30 Lateral crural overlay in the treatment of tip ptosis - A. Boccieri
12:30-12:45 Discussion

12.45-13.05 GRAFT OVERTREATMENT IN PRIMARY RHINOPLASTY
Chairmen: V. Cervelli, G. Paludetti

12.45-12.55 Is it really necessary to use grafts in primary rhinoplasty? H. Saleh
12.55-13:05 Spreader grafts and columellar struts are used too often? P. Palma

13.05-13.50 NEW BOUNDERIES IN RHINOPLASTY
Chairmen: P. Morselli, J. Planas

13.05-13.15 Reconstruction of alar cartilage defects based on the combined use of autologous chondrocyte micrografts and PRP - P. Gentile
13:35-13:45 Profiloplasty: medical vs surgical - D. Bertossi
13:45-13:50  Discussion

13:50-14:30  Lunch

14:30-15:00  COMMUNICATIONS  
Chairmen: M. Pascali, I. Vasilenko

14:30-14:36  When and why I choose spreader graft / spreader flaps / letdown in the treatment of the nasal dorsum in primary rhinoplasty - V. Finocchi

14:36-14:42  The MesoRhinoFiller simplified solution for the nasal reshaping in primary and secondary treatment - F. Romeo

14:42-14:48  Increasing and decreasing the tip of nose projection when and how D. Bottini

14:48-14:54  Importance of skeletal relationships of the maxillary in rhinoplasty G. Liberatore

14:54-15:00  Discussion

15:00-16:00  VIDEO PANEL 1  
THE TIP IN PRIMARY RHINOPLASTY: HOW TO DEAL WITH THE ROTATION, PROJECTION AND MALPOSITION  
Chairman: A. Scattolin

Panelists: G.A. Bertoli, M. Zama, P. Schiavon, I. Vasilenko, M. Pascali

16:00-16:15  Lecture: Management of the severely deviated nose without extracorporeal septoplasty - H. Foda

16:15-17:15  VIDEO PANEL 2  
TREATMENT OF CROOKED NOSE: EXTRACORPOREAL SEPTOPLasty VS SPREADER GRAFTS; CROSSBARR GRAFT VS CAMOUFLAGE. DO ALL ROADS LEAD TO ROME?  
Chairman: A. Boccieri

Panelists: V. Cervelli, M. Pascali, P. Palma, F. Bassetto, P. Persichetti
17.15-18.15 APPARENT CONTRAST AND SUBSTANTIAL CONVERGENCE
Chairmen: C. Gasperoni, M. Valeriani

17:15-17:25 External incisions in rhinoplasty: from reconstructive to aesthetic surgery
G. Schiavone

17:25-17:35 Technical options to achieve tip rotation - P. Giacomini

17:35-17:45 Internal and external osteotomies: the past and the present C. Alfano

17:45-17:55 Spreader graft in open and closed technique - R. Bracaglia

17:55-18.05 Use of columellar strut in open and closed technique - A. Varini

18.05-18.15 Discussion

18.15-19.15 ROUND TABLE
NON CONVENTIONAL RHINOPLASTY: ADVANCED INSTRUMENTAL TECHNOLOGIES AND FILLERS (LASER, PIEZO SURGERY, FILLER)
Chairman: F. Saccomanno

Panelists: E. Bartoletti, J. Planas, D. Bertossi, A. Trivisonno
SECONDARY RHINOPLASTY: A SURGERY IN A MINEFILED

8:20-8:40  Lecture
Cartilage grafts: arguments and options - H. Saleh

8:40-10:40 OUTCOME IN THE NASAL DORSUM
Chairmen: S. Di Girolamo, H. Saleh

8:40-8:50  Septal or auricular concha grafts in the saddle-nose deformity - H. Foda

8:50-9:00  Rib graft: an irreplaceable tool - E. Robotti

9:00-9:10  Rib graft technique step by step – P. Schiavon

9:10-9:20  Grafting in secondary rhinoplasty – A. Borriello

9:20 -9:30  Refinements using perichondrium and crushed cartilage – T. Marianetti

9:30-9:40  Dorsal augmentation with diced cartilage and retroauricular fascia
G. Campiglio

9:40-09.50 Elongation septal graft vs spreader strut graft – S. Bruschi

09.50-10:00 Supra tip deformity: prevention and treatment - A. Marzetti

10:00-10:10 Nasal septum reconstruction – A. Bocciieri

10:10-10:20 Treatment of nasal septum perforations – I. Tasca

10.20 – 10.40 Discussion

10.40-11.40 IATROGENIC NOSE TIP DEFORMITIES
Chairmen: V. Cervelli, M. Pascali

10.40-10.50 Total and sub-total nasal tip reconstruction with conchal cartilage graft
M. Pascali

10.50-11.00 Alar rim graft in the alar retraction – M. Bussi

11:00-11:10 Alar batten graft for the treatment of valve defect – T. Marianetti

11:10-11:20 Composite graft: the only solution for selected patients - G. Schiavone

11.20-11:30 The closed approach for secondary tip correction – A. Scattolin
DIFFERENT PHILOSOPHIES AND RELIGIONS IN SECONDARY RHINOPLASTY
Chairmen: M. De Vicentiis, J.C. Neves

11.40-11.50 Closed rhinoplasty: efficacy of being less invasive in problem solving
A. Scattolin

11.50-12.00 Structural open rhinoplasty - E. Robotti

12:00-12:10 The importance of restoring a nose contour harmony - P. Palma

12:10-12:20 Keeping a lasting result in secondary surgery - S. Mocella

12:20-12:30 Nose function: the essential starting point in secondary rhinoplasty
I. Tasca

12:30-12:40 The role of fillers for treatment of minor aesthetical imperfections after rhinoplasty - E. Bartoletti

12:40-12:50 Revision rhinoplasty in patients who underwent multiple surgeries
J.C. Neves

12:50-13.05 Discussion

Lunch

COMMUNICATIONS
Chairmen: A. Boccieri, M. Pascali

13.50-13.56 Use of bank cartilage in nasal reconstruction - I.V. Aboh

13.56-14.02 Use of autologous cartilage in saddle-nose correction - D. Quarato

14.02-14.08 Auricular composite graft for reconstruction of the nasal ala
V. Didonfrancesco

14.08-14.15 Discussion

ROUND TABLE
SHORT NOSE TREATMENT IN REVISION RHINOPLASTY
Chairman: P. Palma

Panelists: M. Klinger, J. Planas, P. Persichetti
15.15-16:15  VIDEO PANEL
THE MOST DIFFICULT CASE OF SECONDARY RHINOPLASTY IN MY PRACTICE
Chairman: A. Boccieri

Panelists: H. Foda, A. Scattolin, M. Bussi, S. Bruschi

16.15-17.25  TRICKS BORN BY EXPERIENCE
Chairmen: V. Cervelli, E. Robotti

16.15-16.25  Treatment of “stubborn” deviations of nasal pyramid - G. Paludetti
16.25-16.35  Post-rhinoplasty nasal obstruction - H. Foda
16.35-16.45  Failures in secondary rhinoplasty: what experience gained over the years will no longer make me do - H. Saleh
16.45-16.55  Tricks in the treatment of secondary tip - J.C. Neves
16.55-17.05  The treatment of the nasofrontal and nasolabial angles - F. Saccomanno
17.05-17.15  Disappointed patient after several rhinoplasties: the best ‘start’ to have a happy end. Is there an ‘ideal’ strategy? P.G. Morselli

17.15-17.25  Discussion

17.25  Closing remarks
V. Cervelli
